

ALL SHADING PRODUCTS

THE NEXT GENERATION IN SHADING

BUILT TO YOUR SPECIFICATIONS

Eclipse offers a complete line of retractable shading systems for your home or business. Our “green” products will reduce your cooling costs, expand your living space and add style and color. Eclipse shading systems are individually crafted to meet your unique and specific shading needs - with virtually millions of combinations.

Your independent Eclipse dealer is a shading expert who will design and install products that are both beautiful and functional. We assemble our products right here in the USA using the finest components from around the world. Using state-of-the-art equipment and the latest technology, our skilled craftsmen and assemblers typically build each unit in less than 7 days from the date of order. This express production schedule allows your Eclipse dealer to typically install your awning within 3 weeks or less.

SOLAR ECLIPSE

Uniquely Designed And Built To Meet Your Needs

This elegant European style shading system provides the perfect combination of refinement and performance. The compact and sleek lines of the Solar Eclipse housing blend harmoniously with modern architecture when fully retracted. The Solar Eclipse is unique from it's special hardware finishes to product features, including motorized front drop shade, semi cassette and full cassette design options.

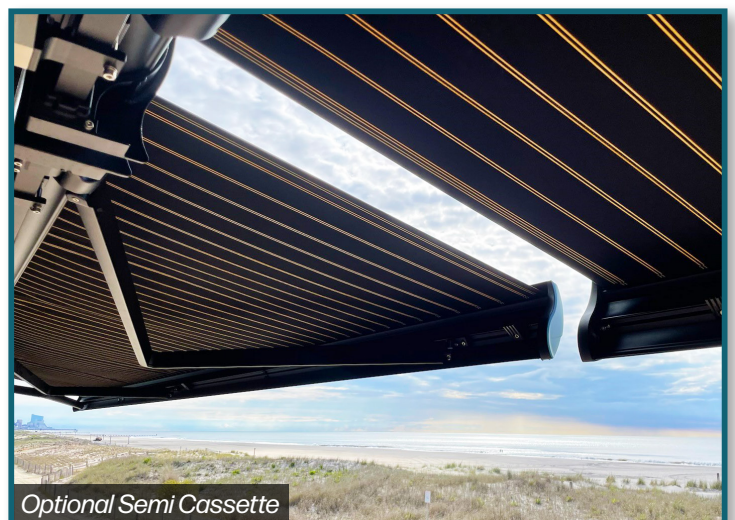

ECLIPSE PREMIER

Improve On A Classic

The Eclipse Premier is the upgraded “Gold Standard” of our Eclipse model and is known to be our most popular unit. The Eclipse Premier offers the latest key product enhancements to ensure a long lasting, trouble free shading system. This unit is confidently backed with our extended Platinum Protection Warranty package included at no additional cost. The Semi Cassette option features components that provide a refined, finished look while adding strength and durability to the system. The aluminum powder coated torsion bar has been upgraded to a stronger, thicker wall profile to increase unit rigidity. The retractable arms are where you'll notice the greatest improvements. These arms feature larger profiles, a concealed heavy duty arm belt, sealed ball bearings at the elbow, and an overall feel of a contoured designer look.

Optional Drop Shade

Optional Semi Cassette

TOTAL ECLIPSE

When Bigger And Better Is Just Right For You

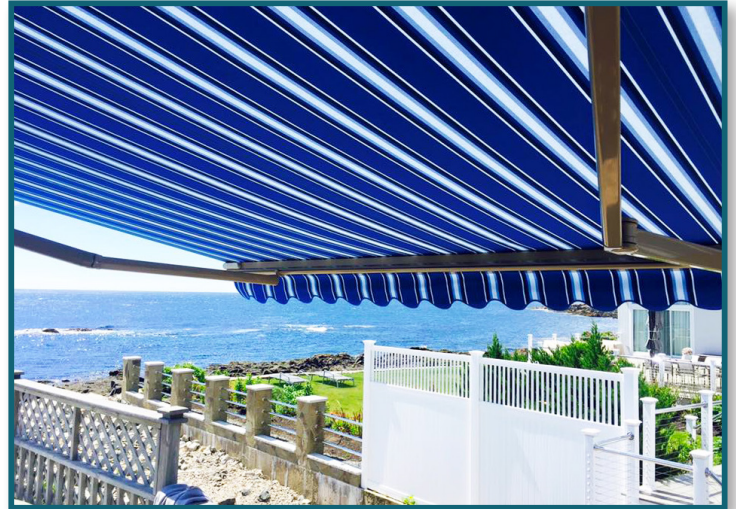

In production since 2003, the Total Eclipse is the only system on the market that offers projections up to 16'6". Providing unparalleled strength, durability & security, The Total Eclipse can provide up to 660 square feet of solar protection. When you add this unit to your home, feel confident that you have selected the finest shading system!

THE ECLIPSE

Motorized Retractable Patio Awning

The Eclipse can be mounted on virtually any surface and is ideal for both residential and commercial applications. The Eclipse model is available up to 40' wide with projections up to 11'6" (up to 22' wide x 11'6" projection, with a Drop Shade). Eclipse shading components meet stringent build standards and are assembled in the USA by skilled craftspeople. Consider our Semi Cassette option for added protection and a compact appearance.

THE DROP ARM

Reduce Cooling Costs and Sun Glare

The Eclipse Drop Arm will give you the elegance and the serenity of the past with today's technology. With three hardware colors to choose from, custom sizing and a full color palette of fabrics, your Eclipse shading expert will custom design and install your Drop Arm awnings to your specifications. With 170 degrees of adjustable inclination, you determine how much of the sun's heat and light you need. When you desire full exposure your Drop Arm awnings can be fully retracted under their optional protective hood or stored under an overhang, protecting the fabric from the elements.

ECLIPSE LATITUDE

European Elegance At Home

Add a new room to your outdoor space. The Eclipse Latitude is a revolutionary outdoor roofing solution that combines style, functionality, and durability. Our innovative design allows you to easily control the amount of sunlight and shade in your outdoor space, while also providing protection from the elements. No matter the weather, our Eclipse Latitude will enhance your outdoor living experience and add value to your property. Upgrade your patio or deck with the Louvered Roof and enjoy multi season comfort in style.

Structural Attachment Application

Free Standing Application w/ Motorized Screen Option

ECLIPSE E-ZIP

Our Side Fabric Retention System

The Eclipse E-Zip retractable shading system provides easy, touch-of-a-button control for expanded living space. Your custom made shading system will provide on-demand control of the sun's glare and harmful UV rays.

Your E-Zip units can also prevent rain and wind from entering your porch or patio area. The Eclipse E-Zip, a side retention track screen, will allow you to create a virtually bug proof environment with a press of your remote or wall switch.

HD SCREENS

Maximize Your Energy Savings

Exterior screens greatly reduce solar heat gain by stopping the effects of the sun before they enter the home, lowering room temperatures up to 20 degrees! Eclipse screens will also add privacy and security to any location. Eclipse screens are fully custom made in a wide variety of fabrics and options to best fit your unique needs. Most Eclipse exterior screens incorporate an aluminum extruded cassette housing which stores the fabric when retracted, allowing full access through the opening. Depending on your mounting requirements, these units can be installed with side tracks, cables or a combination of both to guide the hem bar and fabric.

INTERIOR SHADES

Retractable Sunglasses For Your Windows

Eclipse interior shades are a “Green” way to reduce room temperatures, save energy, eliminate sun glare and stop the fading of your personal items. Eclipse offers several models of interior mounted retractable shades that can be manually operated or motorized. For maximum efficiency, electronic light and temperature sensors can be incorporated. Eclipse shades also feature GreenGuard® certified fabrics that are ideal for any residential or commercial location.

Your independently owned and operated dealer
